### **Summer, Part 2**

We are well into the hot and steamy heart of summer, so last weekend we went to the

coast to cool off, right? Wrong! We spent two sweltering days in a booth at the Rockport Art Festival. Apart from the heat though, it was a good trip, and now my inventory of carvings is very low, so I've had to get off my rear and get some carving done.

Some of you, like me, like carving birds and are familiar with Wildlife Carving Magazine. It is a great source of reference for us who "have

gone over to the dark side". A gentleman by the name of John Hodge has put together a spreadsheet of every article published by the magazine since its inception. I've received an updated version of the list and will send a copy to anyone who would like one. Be advised that it is an Excel document. I will bring a printed copy to the meeting if you would like to see what it contains.
